Canada welcomed 19.9 million overnight visitors in 2024, an increase of 9% over 2023. A stronger winter season helped to offset softer summer arrivals, resulting in annual year-over-year growth from almost all of DC's key markets.

Mode of Arrivals in 2024

The growth in international arrivals in 2024 was led by the US and strong gains from Asia, especially China. Mexico's growth declined due to visa requirement changes early in the year, while Europe and Australia experienced slower growth in the latter half of the year.

Overnight arrivals are preliminary estimates and are subject to change.
